

2x40 and 2x45 minutes of play are commonly or widely used as regular time play for friendly, youth or league matches. Please ensure that you verify all event details prior to confirming a bet.

In the European interface, you can easily tell that a match is being played 2x40 minutes by hovering your mouse over the **(i)** or information icon located beside the event name on your bet slip to check the time of play.

In the Asian interface, you can see the scheduled playing time duration by hovering your mouse over the (i) or information icon of the event title.

Where matches are scheduled for play other than under regular time (e.g. Special time periods of play on various tournaments or friendly matches), all bets will be settled at the end of that scheduled time.
